Color EyeQ is a trademark of Benevue, Inc.

Easy, Accurate, Economical
Harnessing the Power of the Internet to Match Color. That's Progress.

Three Simple Steps

1. Zap your inspiration.

Take Color EyeQ anywhere you find the perfect color to match. Simply place the Color EyeQ reader on a surface, existing paint, or

object, and press the button. The corresponding color value will appear on the screen instantly.

2. Enter your readings.

Log onto the Progress Paint site from any computer (progresspaint.com). Click "Use Color EyeQ" and enter your username and password.

Following the prompts, enter the color values that appear on the Color EyeQ device. A color swatch and exact color match formula will be displayed instantly on the computer screen.

Accurate and consistent matching in all color ranges; pastels, mid-tone and dark accents.

Creating virtually any color with accuracy, from fabric to flowers. Finally a perfectly portable color match.

3. Use formula to mix paint.

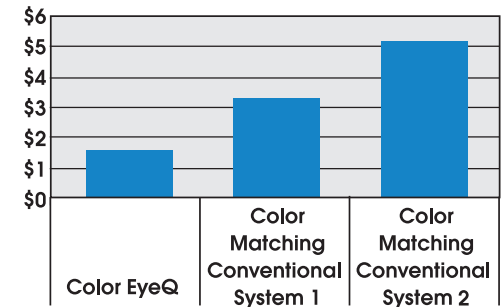

Use the accurate color formula, choose any Progress Paint product, tint, and start painting.

Match it right, the first time.

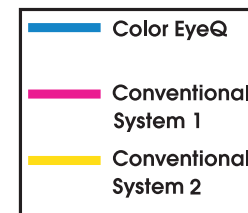

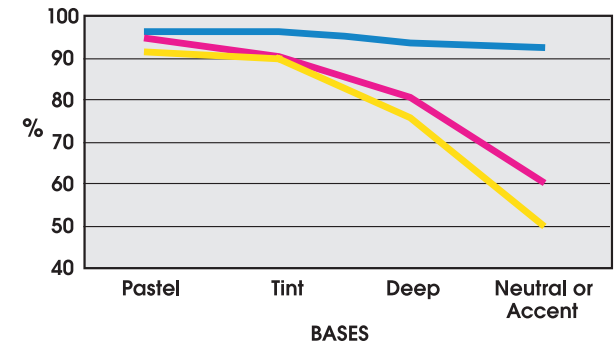

Don't be left behind, the future of color matching is in the palm of your hand.

COST PER DAY OVER 4 YEARS

Affordable and accurate custom color matching, that's Progress.

COLOR MATCHING ACCURACY ACROSS THE FULL SPECTRUM

Notice how competitor's accuracy drops off with darker colors. The Color EyeQ matches all ranges of colors with precision.
